THINKING OF YOU

## 3 easy tips to keep your gift looking fabulous

### ① *Water*

Simply fill the enclosed pipette with fresh water and insert into the oasis. Gently soak as often as necessary to help your flowers last as long as possible.

### ② *Cut flowers*

If some of the flowers wilt, simply cut off the heads with scissors (never pull them) to freshen up your display.

### ③ *Protect*

Place your gift on a mat to protect your surface (in case water leaks from the sponge oasis on to your furniture).
