

3 easy tips to keep your gift looking fabulous

1 Water

Simply fill the enclosed pipette with fresh water and insert into the oasis. Gently soak as often as necessary to help your flowers last as long as possible.

2 Cut flowers

If some of the flowers wilt, simply cut off the heads with scissors (never pull them) to freshen up your display.

3 Protect

Place your gift on a mat to protect your surface (in case water leaks from the sponge oasis on to your furniture).
